EUROTECH

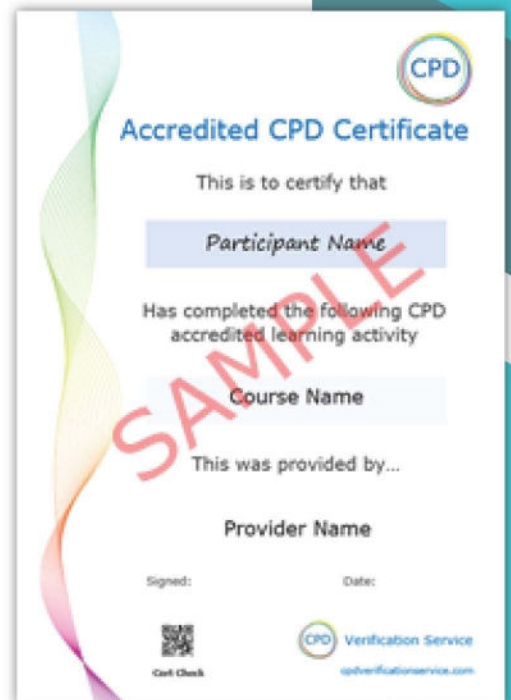

Self-Paced Development Learning

Engaging e-learning options offer you more flexibility when deciding how to meet the development needs of your team. These topics can be blended with classroom training, or completed as stand-alone units, according to individual needs.

Choose from over 80 learning units, verified by the UK's CPD Service. Topics range from Business skills and Compliance to Health and Safety. Learners who successfully complete the knowledge quiz at the end will be immediately awarded an e- certificate verified by CPD.

Our solutions fall into two size categories; small & medium or large. Each unit purchased provides a user with a personal login and 1 year of access from the time they start the course. These e- learning units work equally well on PC's, laptops or mobile devices, giving your learners greater freedom of choice.
